59 youngsters participated in actively, designing and implementing our local youth referendum, in collaboration with the Italian beneficiary organization and the Italian decision maker partner. At the end of our process, we presented the referendum to the local schools and we organized an open to public lottery, hosted at our Municipality Cultural Centre.

The youngsters that have been luckier will continue the project, preparing our mobility actions, having their approval from their parents.

During the whole process, there was a support from a S.A.L.T.O. youth trainer, <http://www.salto-youth.net/tools/toy/elias-mastoras.961/>

Comentarios, propuestas

Everything goes smoothly so far, thanks a lot for the support.
